MEDIA RELEASE
(FOR IMMEDIATE RELEASE)

FLOODING ON MAIN ROAD 28 (GRUNAU TO SEEHEIM)

The Roads Authority (RA) hereby wishes to provide clarity on a video that was posted on *Die Republikein* newspaper's Facebook page regarding flooding of a section on Main Road 28 (Grunau to Seeheim) in the Kharas Region. This road forms part of the C12 Tourist route.

The road in question was formally de-proclaimed in 2014, due to annual flooding and the danger its alignment posed to the public. This road is now a farm road and no longer forms part of Namibia's national road network. Its only purpose is to provide access to the farmers in the vicinity.

After the de-proclamation of the road, the entrance was closed off and all motorists using this route were directed to Grunau via Naute dam to the B4 and the C routes. Thus, motorists are urged to refrain from using this road, especially during the rainy season.

The RA would also like to remind all motorists to exercise extreme caution when travelling during the rainy season. Motorists should plan their trip ahead of time and find out of any road closures or floods on their intended routes from any RA Office.

Lastly, members of the public are requested to report potholes/road damages at their nearest RA Office or send an email to pr@ra.org.na or via the RA Facebook page—Roads Authority Namibia.
