Full & documented service history.

The car was imported into Kenya in December 2016. Since then, it has been driven about 4'000 miles on tarred roads only.

Last service was done in March 2017.

The car is in a very good technical and cosmetic condition. There is a dent at the fuel inlet ; the front passenger seat has some minor stains and wear.

The car is parked in Nairobi, Westlands.

The owner will be in Nairobi at the end of March 2018.
